*****CONFIDENTIALITY NOTE*****
THE DOCUMENTS ACCOMPANYING THIS FACSIMILE TRANSMISSION CONTAIN INFORMATION FROM THE LAW FIRM OF GREENBLUM & BERNSTEIN, P.L.C. WHICH IS CONFIDENTIAL AND/OR PRIVILEGED. THE INFORMATION IS INTENDED TO BE FOR THE USE OF THE INDIVIDUAL OR ENTITY NAMED ON THIS TRANSMISSION SHEET. IF YOU ARE NOT THE INTENDED RECIPIENT, BE AWARE THAT ANY DISCLOSURE, COPYING, DISTRIBUTION OR USE OF THE CONTENTS OF THIS FACSIMILE INFORMATION IS PROHIBITED. IF YOU HAVE RECEIVED THIS FACSIMILE IN ERROR, PLEASE NOTIFY US BY TELEPHONE AT (703) 716-1191 IMMEDIATELY SO THAT WE CAN ARRANGE FOR THE RETRIEVAL OF THE ORIGINAL DOCUMENTS AT NO COST TO YOU.

ATTORNEY-CLIENT CONFIDENTIAL AND PRIVILEGED COMMUNICATION

CALLED FAX NO: 571 273 3356

TO : U.S. Patent and Trademark Office
ATTN : Ms. Victoria Chen
FROM : Greenblum & Bernstein, P.L.C.
DATE : May 24, 2011

RE: Appl. No. : 10/566,204
Title : INTERNAL TREATMENT APPARATUS FOR A
PATIENT AND AN INTERNAL TREATMENT
SYSTEM FOR A PATIENT
Inventor : Akira SUGIYAMA et al.
Our Ref. : P29145

Dear Ms. Chen:

Further to our telephone conversation of May 9, 2011, please find below a summary of items for discussion during our telephone interview scheduled for May 27, 2011 at 11:00 am.

A. We do not believe that the MITSUDA et al. reference discloses the invention including a plurality of circumferential apertures through which surgical instruments are inserted, since MITSUDA et al. shows notches at the end of the tubular body around which wires are extended. We would like to discuss arguments that the circumferential apertures and surgical instruments define over the notches and wires of the MITSUDA et al. reference.

B. We would like to discuss adding a dependent claim(s) that defines that the apertures of the instant invention are not connected to the end surface of the probe as in MISTUDA et al.

If you have any questions, please do not hesitate to contact me.

Best regards,
Linda J. Hodge
